

### **1. SMSDRIVFITPCT**

Possible Values: NULL or number. This value is the driver fitness BASIC roadside performance percentile (SMS BASIC score for Driver Fitness). Numeric values range from 0 to 100. Scores may have one decimal place, such as 85.4.

### **2. SMSFATIGUEDRIVSV**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the carrier has serious violations from investigation for fatigued driving within the past 12 months.

### **3. SMSUNSAFEDRIVSV**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the carrier has serious violations from investigation for unsafe driving within the past 12 months.

### **4. SMSFATIGUEDRIVPCT**

Possible Values: NULL or number. This value is the fatigued driving (hours of service) BASIC roadside performance percentile (SMS BASIC score for Fatigued Driving). Numeric values range from 0 to 100. Scores may have one decimal place, such as 85.4.

### **5. SMSVEHMAINTBASICALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSVEHMAINTPCT score is over the threshold and/or if there are serious violations for vehicle maintenance within the past 12 months. If value is "Y" the carrier has a BASIC alert for the "Vehicle Maintenance" category.

### **6. SMSUNSAFEDRIVBASICALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSUNSAFEDRIVPCT score is over the threshold and/or if there are serious violations for unsafe driving within the past 12 months. If value is "Y" the carrier has a BASIC alert for the "Unsafe Driving" category.

### **7. SMSUNSAFEDRIVPCT**

Possible Values: NULL or number. This value is the unsafe driving BASIC roadside performance percentile (SMS BASIC score for Unsafe Driving). Numeric values range from 0 to 100. Scores may have one decimal place, such as 85.4.

### **8. SMSDRIVFITBASICALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSDRIVFITPCT score is over the threshold and/or if there are serious violations for driver fitness within the past 12 months. If value is "Y" the carrier has a BASIC alert for the "Driver Fitness" category.

### **9. SMSDRIVINSPTOTAL**

Possible Values: NULL or number. Number of driver inspections.

### **10. SMSVEHMAINTRDALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSVEHMAINTPCT score is over the threshold.

### **11. SMSCONTRSUBSTBASICALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSCONTRSUBSTPCT score is over the threshold and/or if there are serious violations for controlled substances within the past 12 months. If value is "Y" the carrier has a BASIC alert for the "Controlled Substances / Alcohol" category.

**12. SMSCONTRSUBSTPCT**

Possible Values: NULL or number. This value is the controlled substances and alcohol BASIC roadside performance percentile (SMS BASIC score for Controlled Substances / Alcohol). Numeric values range from 0 to 100. Scores may have one decimal place, such as 85.4.

**13. SMSFATIGUEDRIVRDALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSFATIGUEDRIVPCT score is over the threshold.

**14. SMSVEHMAINTSV**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the carrier has serious violations from investigation for vehicle maintenance within the past 12 months.

**15. SMSVEHINSPTOTAL**

Possible Values: NULL or number. Number of vehicle inspections.

**16. SMSFATIGUEDRIVBASICALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSFATIGUEDRIVPCT score is over the threshold and/or if there are serious violations for fatigued driving within the past 12 months. If value is "Y" the carrier has a BASIC alert for the "Fatigued Driving (Hours-of-Service)" category.

**17. SMSCONTRSUBSTRDALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSCONTRSUBSTPCT score is over the threshold.

**18. SMSUNSAFEDRIVRDALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSUNSAFEDRIVPCT score is over the threshold.

**19. SMSVEHOOSINSPTOTAL**

Possible Values: NULL or number. Number of vehicle inspections with at least one vehicle out-of-service violation.

**20. SMSVEHMAINTPCT**

Possible Values: NULL or number. This value is the vehicle maintenance BASIC roadside performance percentile (SMS BASIC score for Vehicle Maintenance). Numeric values range from 0 to 100. Scores may have one decimal place, such as 85.4.

**21. SMSCONTRSUBSTSV**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the carrier has serious violations from investigation for controlled substances within the past 12 months.

**22. SMSDRIVFITRDALERT**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the SMSDRIVFITPCT score is over the threshold.

**23. SMSDRIVOOSINSPTOTAL**

Possible Values: NULL or number. Number of driver inspections with at least one driver out-of-service violation.

**24. SMSDRIVFITSV**

Possible Values: "Y" for yes or "N" for no. This value indicates whether the carrier has serious violations from investigation for driver fitness within the past 12 months.

**25. SMSINSPTOTAL**

Possible Values: NULL or number. Total number of inspections for the 24-month measurement period.
